## PROFILE

A recent graduate with a Bachelor of Information & Communications Technology, I am driven to excel as a Software Developer, propelled by a profound passion for technology and innovation. Holding a GPA of 75% (3.5) from Durban University of Technology, I have established a solid foundation in essential coursework, including Algorithms and Data Structures, Software Engineering, System Analysis and Design, and Machine Intelligence. Proficient in Python, I am constantly eager to learn and enhance coding skills in various languages, showcasing excitement about applying my academic background and technical skills to real-world projects in the ever-evolving field of Systems Development. Open to new challenges and dedicated to continuous learning, I am enthusiastic about exploring collaborations and opportunities that allow for effective contributions to the dynamic landscape of technology.
